

DF-EZ10

PARKING SENSOR AND LENS HOLE MAKER

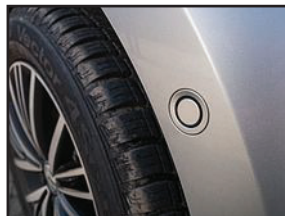

The Parking Sensor and Lens Hole Maker from Dent Fix Equipment is a great way to create holes in order to install driver assist sensors on non-equipped replacement bumpers. The specially designed adapter fits on most 3/8" chuck drills and even comes with 5/16: HSS Drill Bit. Cut hole thickness is < 5mm.

Contact your local distributor TODAY!

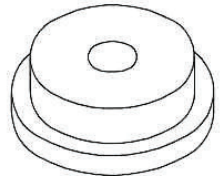

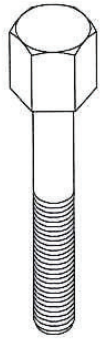

Stack discs on top of each other. Disc can be flipped to cut different hole sizes.
