

EZ NITRO DXE DF-EZN1G/DXE

The perfect set up to start a successful plastic repair program at any repair shop.

The DF-EZN1G/DXE Plastic Repair Station is a complete plastic repairs shop in one tool box. Fitted with a DF-EZN1G nitrogen plastic welder with its award winning built-in, two chamber nitrogen generator. The EZ Nitro DXE kit is enclosed in a 5 drawer lockable tool box, with the plastic welder and nitrogen generator built into the top cabinet. The deluxe station is filled with plastic repair tools that every shop wants from disassembly tools, easy to use welders, tab repair kit, a full complement of plastic welding rod, and much more. There is a high pressure nitrogen out port that can run air tools or fill tires with nitrogen. The DF-EZN1G/DXE is a more complete repair station and it comes with the famous Dent Fix 5 year warranty.

APPLICATION

A complete plastic repair station for repairing cut, ripped, and heavily damaged automotive plastic parts, tabs, and bumper covers.

FEATURE & BENEFITS

- Flow Adjust Switch Technology (FAST) - It simplifies nitrogen welding and eliminates flow adjustments by the user.
- N2 Generator - Save money in the long run by ditching the bottle and converting shop air into savings!
- High Pressure N2 Outlet- Attach air-powered tools to the side of the unit and run on nitrogen! .
- No Bottle to Refill - Avoid refilling delays.
